

ACTIVITY: HAZARDS, RISK ASSESSMENT AND CONTROL THINKSAFE STEPS

Short answer

Spot the hazard

You spot something hazardous what do you do?

- Simple hazard (eg. boxes on the floor in the way)

- More complex hazard (eg. frayed cords, damaged equipment)

Assess the risk

What two main things should the person in charge or responsible for safety consider when assessing the risk?

Make the changes

What sort of risk control measures (hierarchy of control) should they consider?
